# ANNUAL REPORT 2024-2025

## OUR MISSION

To assist children, birth to six, and their families by supporting collaborative efforts that ensure all children are prepared to succeed in school.

**David Lisk**  
Executive Director

As we take a moment to reflect on the last year, I am reminded of a quote from William Butler Yeats, "Education is not the filling of a bucket, but the lighting of a fire." Our mission is to facilitate this objective by meeting the needs of our families as they strive to "light that fire" in their children. We meet them as soon as the children are born through our programs and continue with programs and community partnerships until the child starts the next phase of their educational journey in 5K. We seek to help parents understand their role as engaged parents and develop the needed skills to help their children attain dreams we can't even imagine.

We encourage you to review our Annual Report as we close one year to advance to the next. We also encourage you to find your place in "lighting fires" of inspiration for our preschool children. We welcome you to join in our efforts as we help our youngest to achieve great things.

Thank you for your support!

**Cindy Taubenkimel**  
Board Chair

There are a great many things changing in our world today and it can be overwhelming for many parents of young children. Our efforts are to help them navigate the many challenges they face so their children can thrive. Many families struggle to meet basic needs, or to know how best to nurture their children, or even how to prepare their children for a journey of lifelong learning. York County First Steps continues to serve as the resident expert in early childhood programs and interventions, whether through our own programs or through our many like-minded partners.

I thank my fellow Board Members for their time and support, as well as our dedicated staff members. I also thank our many Funders and Community Partners who believe as we do, that investing in our youngest children is the best investment for our future economic wellbeing.

We look forward to continuing our efforts in helping children have a successful start when they enter school.
